CT-TW-H

Thermal-wet-hybrid

PFEIFFER VACUUM+FAB SOLUTIONS

Part of the BUSCH GROUP

Easy servicing

Service-relevant access only on front side, disassembly in less than a minute, low total cost of ownership thanks to fewer wearing parts

Efficient

Electrically heated waste gas treatment system with integrated wet scrubber, increases the combustion temperature via hydrogen injection to destroy PFC and other gases

Flexible

Customizable design to match specific process requirements

Accessories, spare parts and options

- Heating jacket
- N_2-heating for waste gas inlet
- Fan kit for gas exhaust
